

CIS 212: Project #2C

Assigned: October 11, 2018

Due: October 16, 2018

(which means submitted by 6am on October 17, 2018)

Worth 4% of your grade

Assignment:

- 1) Write a C program parses three strings.
 - a. String #1: an integer. You need to construct this integer by reading one character at a time.
 - b. String #2: an operation. These will all be single character strings. The valid operations are + or -.
 - c. String #3: an integer. (Same as String #1)
- 2) After parsing the 3 strings, you should perform the desired operation (+ or -).
- 3) Print the output of the operation.

This project will be graded by:

- 1) Running the Unix script "check_2c". It is available on the course website.

If the diff program shows any difference, you will get less than half credit.

What should you upload?: Just a single file, which is your C source code.
